

Did You Know?

Is the **climate change** narrative a lie?

What if I told you in less than 30 minutes of footage that we could change your perspective on the climate change narrative that we have all been told to believe? Are you willing to open your mind and listen to another side of the story?

ENJOY THE SHOW...

 **31,000 scientists signed a petition that climate change is not based on science.**

 **In October 2015 NASA recorded MASS gains of Antarctic ice sheets, greater than its losses.**

 **Hidden camera shows CNN director saying they intend to push the climate agenda.**

 **Climate alarmists have made failed climate predictions for over 50 years.**
