Plandemic 3 Trailer is Out - Why COVID-19 and Mass Formation are the keystones to the Coming New World Order.

The "MUST SEE" Documentary of 2023! The previous Plandemic series are accredited for being the first to warn the world of the crimes against humanity that are now being brought to light.

Masks Still don't Work (with Dr Peterson Pierre).

Masks do nothing to prevent infections, nor were they ever intended to. They are merely Splash Guards according to Dr Pierre and other experts.

FACE MASKS

NOT SAFE OR EFFECTIVE

We were told Face Masks would help stop dual-transmission of the Covid-19 virus. They were recommended for very young children right through to the elderly.

What failed to be communicated was the very real proof that masks are not only ineffective in viral protection, but are actual health hazards. The World Health Organization (WHO) lied multiple times, while contradicting themselves and changing their health advice time and time again.

The connection between prolonged mask use and respiratory illness, lack of oxygen, dizziness, headaches, mouth thrush and skin bacterial dermatitis was ignored. Also disregarded was the 'sterility' of the masks that went straight from box to face and over airways, which were often manufactured on floors in third world countries as shown in a multitude of video evidence.

Before you put a mask on yourself, your children or the elderly again, consider the implications a face mask presents to your health, children's development, and the psychological effects and issues it introduces. Ask yourself why you would comply with wearing a product that is proven NOT to prevent transmission of Covid-19 and is detrimental to your health.

Did You Know?

1 You could be inhaling Graphene while wearing the Face Mask.

Graphene is stronger than steel, has more electrical conductivity than any other material, and you are breathing it into your lungs when wearing a mask.

2 Irrational Fear of infection & other people, linked to mental illness.

The ongoing obsession of people wearing masks even when alone, and the unfounded perception of others as a biological threat, is an OCD issue, a phobia or a mental illness.

3 Wearing Masks can cause Oxygen Deprivation.

Hypoxia or hypercapnia in the blood can lead to fainting, headaches, lack of concentration, an increased heart rate and respiratory infections.

4 Children and Masks don't mix.

Masks impede children's brain development during critical maturation periods.

5 The Dangers of Face Masks.

Mask Mandates are no longer in effect in most areas, but a notable number of people, particularly the elderly, continue to wear them.

6 Randomised trial of Cloth Masks compared with Medical Masks in Healthcare Workers.

Many experts claim that cloth masks are pointless, and there is debate from medical experts whether any mask is effective at all against viruses.

7 The Right Chemistry: Graphene is a Remarkable Material, but NOT for your lungs.

Several types of masks that contain some form of graphene have appeared. Graphene, like asbestos can transfer to your lungs.

8 The non-effectiveness of and harm caused by mask-wearing.

Stephen Petty, PPE Expert, was responsible for mask mandates being removed in Kentucky, USA, based on his extensive knowledge on the subject. Masks are a "super freeway" for viruses to come and go. Masks are both useless for prevention of virus particles AND harmful.
