## Safe and Effective: A Second Opinion

Safe and Effective: A Second Opinion shines a light on Covid-19 vaccine injuries and bereavements, but also to takes an encompassing look at the systemic failings that appear to have enabled them. We look at leading analysis of pharmaceutical trials, the role of the MHRA in regulating these products, the role of the SAGE behavioural scientists in influencing policy and the role of the media and Big Tech companies in supressing free and open debate on the subject.

Produced in collaboration with Oracle Films and Mark Sharman; Former ITV and BSkyB Executive and News Uncut, it's a self-financed, one-hour TV programme, formatted for 2 commercial breaks.

**The film is available to watch here in 4K.**

**English subtitles are available. More languages are being created currently.**
