

**Did
You
Know?**

HAVE YOU INFORMED YOURSELF ABOUT Childhood VACCINATION?

Didn't vaccines eliminate small pox and measles?

Did you know that mortality rates for many infectious diseases had already declined, in some cases by up to **99.8%**, before the introduction of vaccines?

Did you know that some studies have linked vaccines to SIDS?

An example is a study where two-thirds of babies who succumbed to SIDS had been vaccinated between 12 hours and 3 weeks prior.
